

# Work Island

A multifunctional addition to operations

watsonconsoles

# The flexible solution for collaboration and storage

Our Work Island creates an oasis of organization and comfort. With applications ranging from day lockers for storage to markerboard worksurfaces for collaboration, our Islands meet a multitude of needs simultaneously.

10 locker, end bookcase configuration shown in Fawn Cypress finish.

4-file with pass-through shown in Fawn Cypress finish.

Work Island is a modular system created to provide efficient, accessible locker placement and other storage as well as an area for team members to meet or take a moment away from their work stations.

Choose the components that are right for your user groups and the unique needs of your center. Our Islands come in three widths—30", 60" or 90"—mounted on rolling

casters or fixed glides. Storage options include keyed lockers or electronically locking day lockers, open or closed shelving, files and even recycling centers. The two-sided system makes it easy to incorporate a mix of options to create the perfect fit for your needs. A range of finish options is available, to match or complement our consoles.

## COMPONENTS

- Ⓐ End recycle center
- Ⓑ End bookcase open
- Ⓒ Open bookcase with pass-through
- Ⓓ 2-file open bookcase with pass-through
- Ⓔ 4-door bookcase
- Ⓔ 4-locker
