

Sanitation Station

Easy access for essential items.

Mercury Pro shown in Arches finish.

watsonconsoles

Protect your team and guests.

Keep materials accessible and easy to use by incorporating Sanitation Stations into your center.

Designed for Convenience

The Watson Sanitation station holds two boxes of Kleenex, a hand sanitizer, and a container of disinfectant wipes, perfect for station cleanings. The handle makes them easy to distribute or refill, and they can be left either free-standing or mounted on walls or cabinetry.

Safety Enhancing

Your team and your guests will appreciate the ready availability and access to cleaning materials. Using Sanitation Stations throughout your center minimizes foot traffic between positions as team members look for cleaning materials, and keeps everyone protected.

*Sanitation Stations shown in Fashion Grey and Charcoal. Stations are available in every Watson powdercoat.
